

BEST IN THE DESERT RACING ASSOCIATION

MANDATORY MOTORCYCLE & QUAD LIGHT RULE

With your safety in mind Best In The Desert mandated, starting with the 2010 “Vegas to Reno” event, a rear facing, high intensity, flashing red light be used. I want to make sure all lights are the same quality and brightness, that’s why I am going to mandate where you purchase the light. The lights will be checked at Motorcycle/Quad Tech inspection at the Texas Station Gambling Hall & Hotel in Las Vegas.

1. The red light must be purchased at Baja Designs Inc., 800-422-5292. When ordering the light, order by the name **Red Safety Light** or by part number 60-2025.
2. The light will be good for 20 hours on one battery; it has 2 flashing LED bulbs and 1 beam LED bulb. The **Red Safety Light** is very small, compact and light weight.
3. The cost to you, the racer, from Baja Designs is approximately \$25.
4. The light must be securely attached to the rear of rider either on the chest protector, camelback, or jersey.
5. All riders on the team must purchase a light. i.e, Ironman buy 1, Pro/Exp/Am buy 2, 3, 4.
6. **Again, the reason for this rule is for your safety.** Best In The Desert makes no money on the lights.
