

MAIN PIT PARKING

The Main Pit is very limited in space. Please do not take more room than you need, please be courteous to your fellow racers!

The Main Pit will have numbered pits, 25 ft x 75 ft each. Each entry may have one (1) pit per race vehicle, (i.e. a team with (2) race vehicles may have 50 ft x 75 ft., three (3) race vehicles entered may have 75 ft. x 75 ft.) The pit spots will be numbered but we will not be making pit assignments this year, first come, first serve.

You can only park parallel to the race course for pitting if you have more than one race vehicle entered, (i.e. if you have (2) vehicles entered than you have 60 ft. in length parallel to the race course to park parallel, if you have three (3) vehicles entered than you have 75 ft. in length parallel to park.) If you only have one (1) race vehicle you must park straight in and not parallel to the course.

The Main Pit will be open beginning at 9 AM on Wednesday, March 6, 2019, to mark your pits.

Pit A has extra pit parking, this area is large enough for any overflow RV/Motorhome parking. You may camp overnight in Pit A & Main. NO overnight camping in Pit B and no reserving space in Pit B.

All pits areas must have a gas mat under your race vehicle while fueling. See SGPT13 on Page 19 in our Car/Truck Rulebook. You must also have: CT (1) 20 lb., UTV/MC (1) 10 lb. fire extinguishers in your pit.

Special Pit Passes are required to enter the Main Pit, Pit A and Pit B. Each team will receive the pit passes at registration on Thursday & Friday, March 8 & 9. You will receive one (1) Main Pit Pit Pass in this FIP packet, you may use them to get into the Main Pit on Wednesday, March 6th.

Please tell everyone in your pit to CLEAN YOUR PITS! Please pick up every last bit of garbage in your pits, please! Parents teach your kids to pick up their juice boxes! Parents throw away your cans!
