Welcome to the VT Construction Silver State "300" presented by Polaris RZR

Greetings to all of my fellow
off-road racing enthusiasts,

The VT Construction Silver State "300" presented by Polaris RZR is truly a favorite for Best In The Desert racers in the great high desert of Eastern Nevada. It offers not only scenic value, but also a very challenging race course. The course features a mixture of high-desert mountains, sand-washes, and some of the most panoramic views. Racers travel through the Pahroc Summit area where they will see unbelievable rock formations and the Delamar Valley, where the ghost town of Delamar is located and gold was discovered in 1890. Then the race passes through the Cathedral Gorge, an area of eroded spires, towers and columns of tan bentonite clay. Then, on to Pioche, a city that in 1870 was considered to be one of the wildest mining camps in the West. Pit 3 is in Caliente, a town dating back to the late 1800's!

The race starts 15 miles north of Alamo, an area established in 1901 that was important for cattle ranching and still is today. From there, it continues north through Caliente, a town where in 1901, the Union Pacific Railroad and the Oregon Short Line claimed the same territory and the same set of tracks. The course also travels to the Caselton area where silver was discovered in 1868 at the Prince Mine. The entire area is rich in history, and this race provides an opportunity to go back in time and experience what it must have been like to live as a cattle rancher, a miner, or a railroad man. This is not only a great race, but also a great event for your entire family and race team.

Remember, Best In The Desert is about creating memories. That's why the VT Construction Silver State "300" presented by Polaris RZR will continue to be a racer favorite.

I would also like to give a big THANK YOU to our great sponsors for all of their support; VT Construction, Ford Motor Company, Lucas Oil Products, VP Racing Fuels, Rugged Radios, Fabtech, Polaris RZR, KC HiLites, Beta Motorcycles, Method Race Wheels, Trophy Tractor, R-N-R Steel, American Fastbacks, Tactical Recovery Equipment, Sportsman Cycle Sales, Dicks Racing Suspension, TrueTravel Dynamics, DirtNation.com, McKenzies and Slime.

Welcome to the Silver State "300"!

dusty times®

Plain and simple, we love playing in the dust. No different than any other romance. We have no choice once bitten. It's the way you feel the first time you make a tire spin, the first time you conquer a hill, the first time you wear a helmet. It's a ritual, passed from generation to generation of hopelessly obsessed. You know you love it.

We intend to energize this institution and what it represents.

An experience we are in love with.

FORD RAPTOR

BILLET UPPER CONTROL ARMS

Factory ball joint upper control arms won't hold up when driving hard in rugged terrain. Fabtech's one piece billet 6061 aluminum Upper Control Arms replace the stock UCA's for increased strength and reliability.

These high quality billet UCA's utilize 1.25" FK Uniballs and 3/4" FK Heims at the frame for aggressive driving offroad while providing a positive onroad feel. Designed for stock and Fabtech 4" lifted Raptors.
